CHAIR’S REMARKS
Lowry Caudill, Chair presented the following remarks:

Other programs in the top 25 were statistics and computer science. The Kenan-Flagler

- Chair Caudill called on BOT Secretary Sallie Shuping-Russell to read the resolution for Student Body President Christopher Lambden.

**RESOLUTION OF APPRECIATION FOR CHRISTOPHER DAVID MCCARTNEY LAMBDEN**

**WHEREAS**, Christopher Lambden served as President of the UNC student body in 2013-2014, and was an articulate and passionate voice for students as a member of the University’s Board of Trustees; and,

**WHEREAS**, Christopher was an innovative and creative leader who ably managed a talented student government team that worked on a broad range of important issues for the Carolina community; and,

**WHEREAS**, Christopher, as a member of the Title IX Task Force worked with others to educate students about the critical issues surrounding interpersonal violence, convened a student panel to contribute ideas, and was an invaluable and thoughtful spokesperson on campus and elsewhere; and,

**WHEREAS**, Christopher tackled a number of divisive issues during his tenure, and proved to be a steady and constructive leader for students; and,

**WHEREAS**, Christopher, as a trustee, was a thoughtful voice in board deliberations, always keeping in mind the long term good of the University;

**NOW, THEREFORE, BE IT RESOLVED** that the Board of Trustees of the University of North Carolina at Chapel Hill congratulates Christopher Lambden for a job very well done, expresses its deepest appreciation for his outstanding work, and wishes him the very best in his future endeavors.

Trustee Clay presented the motion to approve this resolution, seconded by Trustee Curtis, and passed. The Board of Trustees and all others present applaud Mr. Lambden. After, Chair Caudill continued his remarks.

- Acknowledged Chancellor Folt’s recent accomplishments including her visit to the White House to represent the University on sexual assault. This was the Chancellor’s third visit to the White House in eight months.

- Last month, the Chancellor made a major policy presentation to the UNC Board of Governors about the commercial and financial value of intellectual property created by UNC faculty researchers.

- Chancellor Folt was also recognized as an active researcher by being a featured plenary session speaker at the National Institutes of Health and Environmental Sciences workshop on the health effects of arsenic, one of her longtime research interests. She also spoke as part of the institute’s distinguished Spirit Lecture Series – an annual event highlighting women who have made significant contributions to the field, while maintaining a rich and meaningful personal life.
• The Chancellor has also spent time visiting with alumni and friends in California, Atlanta and London. These visits are playing well and are putting the University in an excellent position with important constituents.

• Chair Caudill introduced Felicia Washington, who is now the Vice Chancellor for Workforce Strategy, Equity and Engagement. This position will bring together critical functions under one office.

   [A copy of these remarks is located in the Office of the Assistant Secretary.]

REMARKS FROM THE STUDENT BODY PRESIDENT

Christopher Lambden gave his final remarks as Student Body President:

• Introduced Andrew Powell, the 2014-2015 Student Body President from Nashville, TN. Andrew’s platform focuses on educational reform and innovation.

• Reflected on his platform to make a Carolina more affordable, safe and academically prestigious environment, as well as the last year of accomplishments:
  o Wanted to foster stronger relationships between the student population and state legislature.
  o Conducted a full audit of all student fees.
  o Worked on petition for students to voice their opposition to the Board of Governors academic policies regarding drop-add periods.
  o Created a website to compile a list of all resources open to students.
  o Served on the Universities Task Force charged with drafting a new sexual assault and harassment policy.

• Addressed the divide between the Greek community and the rest of the campus.

• Thanked all on the board who have served with him in the last year and the administrators he has had the opportunity to work with.

   [A copy of these remarks is on file in the Office of the Assistant Secretary]

CHANCELLOR’S REMARKS

Chancellor Folt spoke on the following:

• Thanked Student Body President Christy Lambden for his efforts over the last year.

• Since the last meeting, the Chancellor met with other university presidents at the University of Virginia to talk about sexual assault as well as participated in a listening session at the White House with President Obama’s White House Task Force.

• Visited King’s College in London. This was an opportunity to extend strategic partnership with King’s College, leaders in teaching and research. She also visited California and Atlanta to meet with alumni.

• Sought out a new inquiry by an independent counsel with the help of President Tom Ross. Ken Wainstein will lead the inquiry. When he is done, the report will be made public.

• Addressed the role of faculty research during her Board of Governor’s presentation. UNC faculty researchers create jobs, attract talent and industry, spins out business start-ups and builds North Carolina’s economy.
Later this afternoon will be the Marsico Hall dedication. This will tie success in biomedical research to state-of-the-art facilities. She highlighted Tom Marsico’s contributions to UNC’s healthcare program as well as the N.C. General Assembly for their investment of $243 million in 2009.

Recently, Chancellor Folt and Director of Athletics, Bubba Cunningham, met with ACC Commissioner John Swofford. They outlined six core areas of focus: academic preparedness, education, health and wellness, time demands, resources, and representation at the Governance levels.

Introduced the four presenters for the meeting: Dean Bill Roper; Chair of the Applied Physical Sciences Department, Peter Mucha; STAR Program students; and Athletic Director Bubba Cunningham and student-athletes.

**APPLIED PHYSICAL SCIENCES**

Chancellor Folt introduced Chair of the Applied Physical Sciences Department, Dr. Peter Mucha. This department is UNC-CH’s first new college science department in forty years. Applied Physical Sciences lives in a collaborative interdisciplinary space between science and engineering. It essentially combines cutting edge knowledge and discovery with an engineering mindset to address problems. This department aims to bridge the gap between discovery and innovation as well as better balance basic and applied research here at Carolina. New faculty hires will join a strong team of six researchers who have received over $42 million in research awards in the last four years (fiscal years 2010-2013). Faculty affiliated with the founding of the
new department have worked on projects such as: targeted drug delivery to cancer cells, developing lab-on-a-chip applications, and making solar energy more accessible. To be better positioned for the future and to remain competitive, we must expand our team of faculty members and provide funding to grow. Dr. Mucha concluded his presentation by answering questions from the Board.

**STAR PROGRAM**

Doug Shackelford, Dean of the Kenan-Flagler Business School introduced the students in the STAR Program: Tyler Eshraghi, Lauren Braswell, Jeff Kagan, Abhinav Mehla and Olivia Frere. The team is advising the UNC School of the Arts (UNCSA) on the redesign of a sound stage in High Point to make the Triad and North Carolina more competitive for movie and television production projects. STAR has assembled for 2014 a list of clients that include: ESPN, NC Governor’s Office, RENCI and Belk to name a few.

The STAR team showed that UNCSA aims to create a turn-key, state-of-the-art facility. This facility will include indoor/outdoor green screens, on-site post-production, an extensive digital library, a tank for underwater and above water filming, as well as access to UNCSA facilities. They explained each portion of the planning process and steps that must be taken for this project to come to fruition.

**STUDENT FEES**

The interim Vice Chancellor for Finance & Administration reviewed a slide presentation explaining the details of the student fees proposal. A copy of this presentation is available in the Office of the Assistant Secretary.

Winston Crisp, Vice Chancellor for Student Affairs was called upon to discuss student fees for the 2014-15 academic year. UNC has spent the last four to five years attempting to keep fees
low with analysis provided by student government regarding recommendations to increase or
decrease specific fees in order to best serve our student population. Overall, our current fees
are the lowest in the University’s 17-campus system at 81% of the system average. Although
our athletic and student activity fees are lower, the educational technology and student health
fees are well above the system average.

The revised proposal regarding student health fees is a $20 reduction for this year and
supplementing the budget by finding other ways to maintain all the services currently offered
through the current fee. The committee discussed its concerns about leaving the fee as is
versus the $20 reduction. Mr. Brown presented the motion to approve the $20 reduction in the
fee, Mr. Grauer seconded, the motion passed. Mr. Curtis and Ms. Shuping Russell voted
against the motion.

Re: Mail Ballot

Date: March 31, 2014

I write to request your approval by mail ballot of the following matter related to the Endowment Fund:

In 2005, the Department of Environmental Sciences and Engineering (ESE) created a quasi-endowment fund using expendable gifts and over time reinvested the distribution to build up the fund. The current market value of the fund as of January 2014 was $1,795,088.42. ESE wishes to withdraw $250,000 from principal for use in connection with support costs for the Department and its faculty. Examples of those costs are interior building renovations and investment in the Department’s Design Center and Water Institute Program. I recommend approval of the withdrawal. The Board of Trustees of the Endowment Fund approved this withdrawal by mail ballot on March 19, 2014.

Please mark and return the enclosed ballot indicating whether or not you approve of the above action. Thank you.

#### Total Monetary Value of Non-Salary Compensation

Total Monetary Value of Non-Salary Compensation | Duration of Non-Salary Compensation | Effective Date | End Date
--- | --- | --- | ---
$1,660,000 | 6/2/2014 | NA
### Tenure Promotions

1. The process begins in the Schools with a faculty vote.
2. Next, the dossier packet moves to the Dean of the school for his/her review and support.
3. Then the dossier moves to the Arts and Sciences Advisory Committee (ASAC), for the College of Arts and Sciences, to the Health Sciences Advisory Committee (HSAC), for any of the health affairs areas, or directly to the Appointments Promotions and Tenure committee (APT) for all other schools. For those going through HSAC or ASAC, if they are approved, they are forwarded to APT.
4. The APT committee reviews all promotions and makes a recommendation to the Provost.
5. The Provost then reviews and if he approves makes a recommendation to the BOT.
6. BOT reviews.

### Faculty Salary Increases

1. Schools submit salary increase requests of 10% or greater to the Academic Personnel Office (APO) for review.
2. If all of the process has been correctly done by the schools, APO submits the requests to the Provost for his review.
3. If the Provost approves, he submits them for review to the Chancellor.
4. If Chancellor approves, the requests are moved to the BOT.
5. If BOT approves, the requests move to the BOG.

The BOT reviews and approves increases of 10% or more in salary. The BOG now also reviews and approves increases of 10% or more in salary. Note, faculty increases of less than 10% pass through the EPAweb system for review and approval by the APO office.

### Specific Policies on Salary Increases and Tenure Promotions for Faculty

- The Compensation Policies for each of our schools can be found at [http://provost.unc.edu/policies/](http://provost.unc.edu/policies/) under “Salary Policies by School.” Our schools were given the opportunity to review and update their salary plans in 2012 so the current plans are what they submitted or retained for their units. – COMPENSATION POLICIES

- The Recruitment and Promotion Policies for each of our schools can be found at [http://provost.unc.edu/policies/](http://provost.unc.edu/policies/) under “Appointment, Promotion and Tenure Guidelines by School.” In addition the Equal Employment Opportunity office works with all EPA selection committees to communicate appropriate policies and procedures for the recruitment and selection process. – RECRUITMENT AND SELECTION POLICIES FOR EACH SCHOOL

- The most recent guidance and policies provided to our campus on faculty salaries, including non-state sources, may be found at [https://academicpersonnel.unc.edu/files/2013/09/Updated-Non-Faculty-and-Faculty-Salary-Increase-Guidelines-9.16.2013.pdf](https://academicpersonnel.unc.edu/files/2013/09/Updated-Non-Faculty-and-Faculty-Salary-Increase-Guidelines-9.16.2013.pdf). – MOST RECENT SALARY GUIDANCE
This procedure outlines the guidelines and procedures for requesting “out-of-cycle” increases to base salary for EPA Non-Faculty employees. “Out-of-cycle” increases are any adjustments to base salary excluding adjustments accomplished as part of the normal EPA annual raise process (ARP), a salary supplement (which is not part of base pay) or from a job change resulting from a competitive recruitment or waiver of recruitment. Out-of-cycle requests should be non-routine in nature and must have a specific and detailed justification. The following are justifiable reasons to propose an out-of-cycle salary adjustment:

- To recognize permanent, newly added **additional duties** which are substantive in nature; temporary additional duties are compensated using an administrative salary supplement and not a permanent adjustment to base salary. In the case of newly added duties, the duties in question should be demonstrated to substantially increase the scope and complexity of the employee's position. Minor changes in duties and responsibilities should be addressed in the ARP process. A Position Modification must be completed in EPAWeb Position Management prior to OHR approval of salary adjustments based on additional duties.

- To address documented salary **equity** issues including those caused by the salary of a newly appointed employee within a work unit. Equity may be used when a new hire has been appointed at a higher salary rate than existing employees in the same classification within a particular unit, department, or division. Justification for an increase due to internal equity must identify the inequity and justify the rate of increase based on the relative job level, education, credentials, and/or experience of the affected employees.

- To address job equity in comparison to market or “labor market”. **Labor** market is defined as the area within which employers compete for labor. The market is composed of those institutions, businesses and organizations from which University units recruit or would logically recruit. Justification for an increase due to labor market/external equity must be substantiated by market survey data. **(Labor market increases must be paid from non-state funding sources)**

- As a **retention** offer for an employee who has a documented, confirmable salary offer from an outside institution. In instances where an offer has not been presented, departments must be able to demonstrate that the intended salary increase recipient is considered a finalist for the external position. Justification for an increase due to retention should include an assessment of the individual's merit and value to the institution and the circumstances warranting a retention adjustment.

**PROCESS AND APPROVALS**

- Out-of-cycle requests must be documented on the FY 2013/14 SPA and EPA Salary Adjustment/Supplement form. This form, in Microsoft Excel format, should be emailed to the EPA Non-Faculty HR unit at epansalaryrequest@unc.edu.

- **Any** permissible base salary increase as listed above **(regardless of the amount)** for an EPA Non-Faculty employee requires pre-approval of the Vice Chancellor and/or Associate Vice Chancellor for Human Resources.

- Chancellor pre-approval is required if the cumulative amount of all of the employee's increases fiscal year-to-date is 10 percent or higher of the prior June 30 total compensation. The Office of Human Resources also reports to the Office of the Chancellor, on a weekly or biweekly basis, all increases which fiscal year-to-date are less than 10 percent of the prior June 30 total compensation.

- Board of Trustees (BOT) approval under our normal procedures is required if the cumulative amount of all of the employee's increases fiscal year-to-date is 10 percent or higher of the prior June 30 total compensation.

- Board of Governors (BOG) pre-approval is required if the cumulative amount of all of the employee's increases fiscal year-to-date is 10 percent or higher of the prior June 30 total compensation, which includes base pay and salary supplements then in effect. This pre-approval requirement applies not just to base salary but to all forms of temporary compensation (e.g. salary supplements, acting pay, stipends, and lump sum payments) for any **permanent** employee when the temporary compensation shall either exceed nine months in duration and 10% of the prior June 30 total compensation or 25% of the prior June 30 total compensation, regardless of duration.

- EPA Non-Faculty salary increase effective dates may be no earlier than the first of the month in which the proposed increase receives its final required approval.

**Notes**

1. Pre-approval for any temporary employee salary increase exceeding the 10% threshold is required by Campus HR (VC/AVC for Human Resources).
2. Pre-approval is required for individuals employed by other state agencies or UNC campuses and newly hired at UNC CH with an increase from their current base salary.
3. An employee who is being rehired following prior service in FY11/12, may not receive an increase upon reemployment unless they are returning to a position with a documented increase in duties.
4. Requests for post-docs must follow the same criteria/justifications for increases listed above. Pre-approval for any increase exceeding the 10% threshold is required by Campus HR (VC/AVC for Human Resources).
5. Temporary or interim increases that are will be in place 9 months AND are 10% or greater of the June 30 salary require pre-approval.
6. Temporary increases of 25% or greater of the June 30 salary requires pre-approval regardless of duration.
7. An employee in a temporary job is subject to the same general salary increase prohibitions as a permanent employee.
8. Course overloads are considered task-based compensation and are not included in the 10% pre-approval process.
9. Retention - Employee must be actively considered for an outside opportunity, or compelling retention risks exist based on the external market for hard-to-fill or unique skill sets.
10. Additional Duties: Duties should be demonstrated to substantially increase the scope and complexity of the employee’s position. Minor changes in duties and responsibilities should be addressed in the ARP process. A Position Modification must be completed in EPAWeb Position Management prior to OHR approval of salary adjustments based on additional duties.
11. Equity Adjustment: Justification for an increase due to internal equity must identify the inequity and justify the rate of increase based on the relative job level, education, credentials, and/or experience of the affected employees.
12. Labor Market: Labor market is defined as the area within which employers compete for labor. The market is composed of those institutions, businesses and organizations from which University units recruit or would logically recruit. Justification for an increase due to labor market/external equity must be substantiated by relevant market survey data.
