

## **STUDENT BODY PRESIDENT HOUSTON SUMMERS' PREPARED REMARKS**

UNC Board of Trustees Meeting

July 23, 2015

Thank you Chair Stone

I am very thankful for such an amazing opportunity to serve UNC in my role as Student Body President.

Before I dive in, I would like to thank all of the trustees that are continuing to serve for their hard work over the past several months on many important issues. I would also like to thank the new trustees for their commitment to this amazing university... So, thank you and welcome!

I understand that there are many challenges ahead, but I believe we have an incredible amount of positive momentum going into the new year. We are already underway planning for alcohol awareness events, philanthropic opportunities, and important discussions regarding race and place. I am excited for my fellow students to return to campus so we all can begin working on all these amazing opportunities together.

I am looking forward to giving you a more detailed update in September about the amazing work that has already begun.

As I have said before, I am here to serve my fellow students, board members, and all Tar Heels. I welcome any and all ideas that will further the great mission of UNC.
