REPORT OF THE FINANCE, INFRASTRUCTURE & AUDIT COMMITTEE

Trustee Stone presented the report from the Finance, Infrastructure and Audit Committee. The following items were presented to the committee for action:

Designer Approval

1. Art Lab Renovations
   The Art Lab is a 17,000 SF facility built in 1976 for use by undergraduate and graduate students to create wood, metal, and ceramic art projects. The building contains a metal shop, wood shop, ceramics studio and powder mixing room, paint room, and six graduate student studios. The Art Lab is located about 1 mile north of the main campus.

   The focus of the project is to replace aged HVAC equipment and make upgrades to bring the building into compliance with current safety regulations and standards, accessibility codes and statutes.

   The project budget is $1,220,000 and will be funded through the 2018 Repair and Renovations appropriation. The project was advertised on September 24, 2018. Eleven (11) proposals were received. Five (5) firms were interviewed on October 24, 2018. Members of the Board of Trustees did not participate in the interviews. The committee recommended the selection of three (3) firms in the following priority order:

   1. Hallam ICS Raleigh, NC
   2. Sud Associates Durham, NC
   3. Allison Blanks Pittsboro, NC

   The firms were selected for their past performance on similar projects, strength of their consultant team and experience with campus projects.

3. School of Medicine High Throughput Sequencing Facility
The School of Medicine is relocating a High Throughput Sequencing Facility (HTSF) from the existing off-campus location to the College of Arts and Sciences’ Genome Sciences Building (GSB). The move includes the renovation of two rooms in GSB. The relocated equipment includes general benchtop items, single-task and analytical devices, measurement devices, genetic sequencers, server racks, refrigerators, freezers, instrument tables and storage cabinets.

The project budget is $675,000 and will be funded through F & A Funding. The project was advertised on September 13, 2018. Five (5) proposals were received. Three (3) firms were interviewed on October 26, 2018. Members of the Board of Trustees did not participate in the interviews. The committee recommended the selection of three (3) firms in the following priority order:

1. Clark Nexsen  
   Raleigh, NC
2. BSA LifeStructures  
   Raleigh, NC
3. RND Architects, PA  
   Durham, NC

The firms were selected for their past performance on similar projects, strength of their consultant team and experience with campus projects.

(ATTACHMENT E)

4. West Drive Street Improvements
The project is to repave West Drive from Manning Drive to Mason Farm Road. The selected designer will perform a site evaluation and produce specifications and drawings to repair and pave West Drive. The designer will also perform an investigation into the sidewalk settlement at the corner of Mason Farm and West Drive. The construction scope includes milling, overlay, signal loop replacement, and striping.

The project budget is $650,000 and will be funded through Certificate of Participation (COP) Funding. The project was advertised on September 12, 2018. Five (5) proposals were received. Three (3) firms were interviewed on October 31, 2018. Members of the Board of Trustees did not participate in the interviews. The committee recommended the selection of three (3) firms in the following priority order:

1. Timmons Group

Site Approval

1. Carroll Hall Addition
This School of Media and Journalism is seeking to build roughly 13,000 gross square feet adjacent to Carroll Hall to house flexible learning spaces, production studios, and technical support spaces. A feasibility study was completed during the summer of 2018, and concluded that the spaces around Carroll Hall are highly constrained for new construction, mostly due to the significant network of critical below-ground utility infrastructure combined with the requirements of emergency and service vehicles. Thus, the preferred location for the proposed new spaces is the current site of Phillips Hall Annex. The Annex, which is partially vacant but otherwise houses workspace for
graduate students in the Department of Economics, is in very poor condition and has been recommended for demolition. The Deans of the School of Media and Journalism and the College of Arts and Sciences have agreed to vacate the Annex and relocate the Economics graduate students.

The anticipated project budget is $6,600,000. The School of Media and Journalism has received gift commitments to fund this project.

A motion came from committee to approve the site. Secretary Grumbles seconded, and it passed.

Demolition Approval
1. Phillips Hall Annex
   This is a request for approval to raze Phillips Hall Annex, a state-owned property located on campus between Phillips Hall and Memorial Hall. The property address is 130 East Cameron Avenue, and the asset number is 44. Phillips Hall Annex was built in 1925 and is a two-story, 5,500 square foot building. It currently serves as graduate student offices for the Economics Department. The building is in very poor condition and has roughly $1,500,000 in deferred maintenance costs. The cost to demolish is estimated at $170,000 and is scheduled to take place in summer 2019.

Design Approval
1. Medical Education Building
   The new Medical Education building will replace Berryhill Hall with a new facility that would allow the Medical Education program to compete with top medical schools across the country. The project includes immersive learning for simulation, standardized patients, surgical training, and skills labs to meet the most current thinking about the increased need for inter-professional practice and education. It also includes a more flexible and consolidated foundational sciences teaching space representing anatomy and physiology (human structures) and microbiology.

   Other program components in the project include an Active Learning Theatre that can hold the projected class size of 230 medical students and also facilitate interactive, case-based learning; medical education classroom and seminar space; and medical education administrative and student interface space. Additionally, the project will co-locate School of Medicine and Health Care leaderships to provide improved efficiency and bring students, clinicians and administrators together in a collaborative environment.

   High efficiency heating, cooling, and lighting systems, along with well-insulated walls and roof, will yield a building that uses 30% less energy than the baseline for this building type. Similarly, by employing strategies such as low-flow fixtures and stormwater and condensate harvesting, the design will enable water use reductions of 40% below baseline.

   The project is scheduled to start construction in late 2019. The project budget is $104,500,000 and will be funded by State of North Carolina bonds, F&A, and UNC Health Care. The project was presented to the Board of Trustees for information at the May 2018 meeting.
